## SAT Seminar

- Each seminar has four separate sessions which include effective strategies for all three sections of the SAT.
- An SAT Prep book will be provided with full-length practice tests and additional strategies and practice problems.
- A study guide will be given to help plan study time before the test.
- Specific assignments to do at home are designed to reinforce and practice key strategies.
- Optional tutoring will be available to address individual needs. Tutoring hours can also be used for homework help.
- **BONUS: Each SAT Prep student can make an appointment for free scholarship and college application help.**

## Questions & Answers

- **Why is going to each of the 4 sessions important?**  
You will receive important strategies and hints at each session that are not included in your book. Different material will be covered in each session.
- **What will I get out of the SAT Seminar?**  
You will get out of the seminar what you put into it. Students who practice the strategies from the seminar do much better than those who wait until the last minute to study.
- **What happens if I miss one of the sessions?**  
Please contact the instructor to get any missed materials. Prior arrangements to make up missed days may be made on a case-by-case basis.
- **Is completing the assigned homework important for every session?**  
The homework assignments have been designed to coordinate with the material taught in each session. It is extremely important to practice these strategies before you take the SAT. The more practice you complete, the higher your scores will be.
- **What if I need extra help in one or more areas?**  
In order to address your specific needs, we can work on areas of concern during separate tutoring sessions. This will give you reinforcement in the more challenging areas for you.
