ABOUT US

We believe in the power of visual communications. The images that capture the moments of a larger story. A story that places products and services into the context of people's lives. And, brings into focus our needs and what motivates us to act.

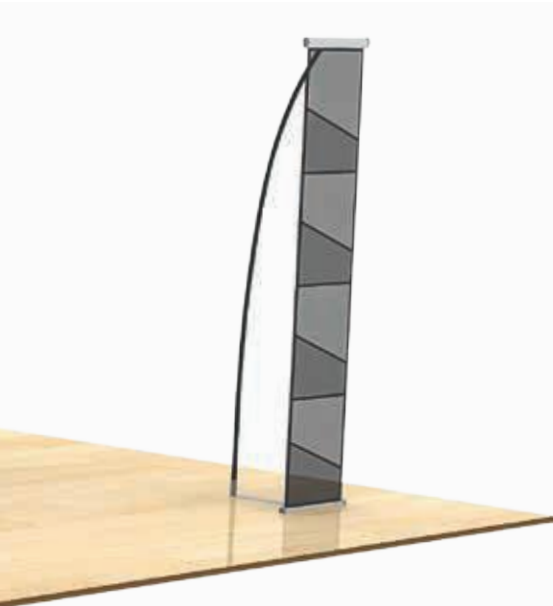

Images and branding that ring true break through—with clarity—the visual noise of today's marketplace.

We invite you to break through with more clarity, color and texture in unexpected designs, structures and venues. We invite you to engage and excite your customers.

Under one roof, we specialize in accessible, personalized service—along with large-format, dye-sublimation fabric printing. We also offer in-house design and display hardware fabrication.

TOTAL IGNITION

Illumination on both sides.

- Freestanding back-lit LED lighting creates long-distance, high visibility with stunning visual impact
- Dye-sublimation graphics deliver deep density colors and blacks that brighten, but not wash-out with back lighting
- Soft fabric offers richness and intensity of both color and texture

Slim/Easy wall mount bracket

One or two sided graphics

LED lights emit approx. 1,400 – 1,500 lms

Graphics slips easily into frame

HANGING BANNERS

Bigger than life graphics.

Maximize your visibility with a custom hanging banner.

Sized from 8 to 15 feet, your branding and graphics will stand out on a tradeshow floor or retail space drawing in more customers. In just a few minutes, with no tools required, your signage is a snap to put together.

We can customize your graphics to fit a compatible round, square or triangle banner frame.

HOW TO PREPARE GRAPHIC FILES

TEMPLATES - SIZE

Layout guidelines and templates can be downloaded from each of the product pages on our website. Make your graphic dimensions match the product you are purchasing. Your image should be to size of your product at 72-150 dpi. Bleeds: Not all products require bleeds; check guidelines for specific product requirements.

RESOLUTION - FILE TYPES

Final size files are only required to be 72-150 dpi. You can view your file in Photoshop at 100% to see how it will look when printed. If designing to reduced scale, adjust dpi accordingly. We accept files from the following programs and formats: Adobe Photoshop and Adobe Illustrator: .ai, .psd, .tiff, .eps and high resolution jpg.

COLOR

Your print file must be in CMYK format. Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files. However, we can only guarantee color accuracy when a printed proof is ordered and approved.

PROOFS

We always e-mail a digital proof before production. It is your responsibility to proofread all your text. Please be aware that we will print your graphics exactly as you send them to us. Spelling or grammatical errors are your responsibility. After your proof has been delivered, we will wait for your approval before printing your artwork. **We rely solely on your approval of the proof as final verification and acceptance of the project.** Any adjustment to your graphic can take time and fees may apply if your modifications or adjustments take an hour or more.
