

### IRRIGATION SYSTEMS OPTIONS AND UPGRADES

#### IRRITROL RESIDENTIAL REMOTE CONTROL

1,000ft range, turn individual zones on/off, run zones for a set time, run programs. Also controls landscape lighting with optional module.

#### UPGRADE RAIN SENSOR TO CLIMATE LOGIC WIRELESS SENSING SYSTEM

Rain, temperature and solar sensor. Uses 10 years of historical weather data with current weather data and adjust controllers run time every day.

#### UPGRADE IRRITROL CONTROLLER TO A SMART CONTROLLER WEB BASED

Works off your wifi network, control from an app on cell phone or tablet, no monthly fees and adjusts daily based on weather conditions. Price includes installation and setup of app on one device.

#### ADDITIONAL LIGHTNING PROTECTION

For lightning prone areas. Includes 8ft lightning rod and copper wire to controller.

#### FILTRATION

Keeps dirty water out of irrigation system. Stainless steel filter element no filters to buy. Rinsing can be done manually or automatic with irrigation controller.

#### HOSE ENCLOSURE BOX

Underground 50ft coil hose in enclosed box. Includes hose, nozzle and shutoff in box.

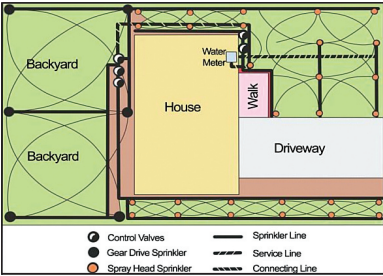

### **MICRO DRIP FOR POTS**

Automatic watering for pots and window boxes.

### **DEKORRA ROCKS**

Artificial rocks that conceal a variety of unsightly devices. Well, septic or anything you want to hide.

### **AS BUILT DRAWING**

A complete map with locations of back flow, main shutoff, controller, main waterline/wire, valve boxes, sprinkler heads. Please provide a survey or a landscape plan for the most accurate as built drawing.

### **UPGRADE 5004 ROTARY HEAD TO 5004+ STAINLESS STEEL ROTARY**

Stainless riser for extra durability, turn rotary on/off at head.

### **UPGRADE TO HUNTER I-20 STAINLESS**

Stainless riser for extra durability, turn rotary on/off at head \*this is the only Hunter head we will install due to high failure rate in PGP and PGM heads.

### **AUTO FILL POOL AND POND**

Keeps water level in pool or water feature. Includes shutoff for service.

### **MISTING ZONE FOR POOL PATIOS**

Helps cool off hardscaped pool patios in the summer heat. Controlled manually by controller or with optional remote.

### **RIDORUST SYSTEM**

Injection system for wells with high iron. Prevents well water rust staining on walls, sidewalks, fences, shrubs and other elements of landscaping. System can be used to administer liquid fertilizer, pest control and soil amendments to landscape.

### **POND SCREEN SLED**

Keeps submersible pumps off the bottom of a pond or river. Can be installed with wheels for service.

### **INSTALLATION OF CONDUIT**

For garden sheds, driveway sensors, lighting, yard outlets and security cameras.
