

1/28/2012

To all potential Buffington Property clients,

Buffington Property Management has managed my home in Seminole, FL for the past two years. Krista, who has managed my property directly over the past two years, has always kept on top of my needs and has done so in a timely manner.

There were a few times when my tenant had some experiences that made it difficult for her to make rent in a month. While compassionate, I knew that Krista would be firm and maintain a high level of communication on the matter until it was resolved.

Krista has also been a wealth of knowledge. This being my first rental property, she communicated all of the reasons, both legal and "good to know" for owning a rental property. Her advice has paid off and kept a long-term relationship with very few bumps or concerns along the way. Buffington Properties will find tenants for you; however, my tenant was located prior to giving my business to Buffington Properties. Buffington treated my tenant as if they had found her and did a full background, credit and research on her rental history. From the start, I fully trusted the judgment and professionalism of Buffington Properties and Krista.

I recommend Buffington Properties to anyone who is new to the game or is seasoned veteran. I realize that my single property is hardly a large piece of business for Buffington Properties, but I have never been made to feel that way. I give them a 10-out-of-10 for their service level.

Thank you Buffington Properties and Krista,

Joe Stickney
Property Owner
