

MULTI-PURPOSE CLEANER DEGREASER

**“Quality Products for the Health of your Employees and
 the Protection of the Environment!”**

BOC-95 SD:

- Concentrated formula designed to replace a multitude of cleaning products for floors and general cleaning.
- A powerful cleaning formula that save time and effort. **USDA certified.**
- Special cleaning agents quickly and effectively dissolve grease.
- Available in cases of four one gallon, five gallon and 55 gallon containers.

BOC-95 MPC / MPC-2000:

- A food services degreaser that removes the heaviest greasy soils. USDA
- Powerful cleaning action on hoods, filters and stainless.
- Easily removes baked on oil and grease.
- Available in cases of 32 individual portion pack pouches, and cases of four one gallon containers of concentrate. **USDA Certified.**

GS-2000:

- A great glass and hard surface cleaner that dries streak free.
- Has no chemical odor. Harmless to employees and the environment
- Concentrate works with any tap water pH.
- Available in one gallon concentrate or single use portion packs, packed 32 to the case (each pack makes 32 oz of user solution).

*Use the dilutions as shown, adjust according to actual needs. Product works equally well in hot or cold water.
 For safety, always consult the applicable MSDS supplied.*

BOC-95 SD, MPC and GS-2000

DILUTION AND USAGE INSTRUCTIONS:

BOC-95 SD General Cleaning, now USDA Certified.

Two ounces to one gallon of water will handle almost any cleaning needs. Add in one ounce increments per gallon for especially soiled areas.

Dishes

One ounce per gallon of water. DO NOT USE IF DISINFECTANT IS REQUIRED.

Greasy Floors

Two to three ounces to each gallon of water. Apply liberally to floor let sit for short time and mop or brush as usual.

Boil-Out

One ounce to each gallon of water. Boil and rinse as usual. Once a month, use two ounces to each gallon of water and brush to remove heavier deposits if required.

BOC-95-MPC- Hoods, now USDA Certified.

Use the *BOC-95 MPC/MPC-2000* for heavier grease removal. Spray and remove grease with wet cloth rinse if necessary, wipe dry. Scrape off thick deposits first if necessary.

Filters

Remove filters. Spray on the *BOC-95 MPC/ MPC-2000* and let stand for 10-15 minutes. Spray down in sink, brush deposits if necessary or wash as normal in dishwasher. Shake dry and replace.

Baked on Oil or Grease

Use the *BOC-95 MPC/ MPC-2000* to remove heavy grease deposits. Spray on, let stand. Rinse and buff dry. Scrape or brush heavier deposits if necessary.

G/S-2000, Windows and Stainless

Use *GS-2000* for light cleaning needs. GS can be used on all stainless and glass surfaces where it dries quickly to a streak free finish.

MULTIPLE APPLICATIONS

Use *BOC-95 SD* on pots and pans (not needing disinfectant), floors, vents, broilers, grills and deep fryers. Also can be used to clean and degrease walls, windows and any other greasy areas.

ECONOMICAL TO APPLY AND USE

BOC-95 SD is a concentrated formula that penetrates baked on food soils and grease with ease. Employees can wash pots and pans quickly and effectively with no harsh irritants or abrasives. Long lasting suds and light citrus fragrance makes it pleasant to use.

HIGH PERFORMANCE VERSATILE CLEANER

This nearly neutral pH, surfactant blend, powers off grease, oils and tough soils. *BOC-95 SD* does not contain any reportable quantities of hazardous material and is easy on the hands. Biodegradable, long lasting superior cleaner that works in almost every condition
