Letter of recommendation:

Garabedian Plumbing & Heating, Inc. has been fulfilling all plumbing needs at Sunovion Pharmaceutical, Marlborough MA for the past several years. The extent of their onsite services has included both project work and maintenance activities. As an operating pharmaceutical research center, it is typical that project activities require detailed planning and the need to complete project activities during the window of time allotted. Garabedian has successfully completed several of these projects without incident. The most recent was the replacement of an entire hot water system which included pumps, boilers, tanks and piping. The time allotted to complete the project required critical planning and execution to meet the scheduled start up. I am happy to say they coordinated all activities and the project was completed on time and on budget. I would highly recommend the company for plumbing construction and maintenance services.

Sincerely,

Bruce St Pierre

Director of Facilities
