Insurance Financial Policy

Health insurance continues to play an important role in helping people pay for part of their chiropractic care. In the past several years, benefits have been shrinking, insurance companies require detailed forms to be filled out by patients and doctors, others require a Primary Care Physician's referral before chiropractic benefits will be considered.

It is very important that you are aware of your insurance benefits and how they apply toward chiropractic care. Your insurance is a contract between you and your insurance company. We are a provider of chiropractic services and are not involved in the decisions about which services are covered or how much your insurance company will pay. We fill out and submit your primary insurance forms at no charge and will do all we can legally to maximize your insurance benefits.

Some policies do not cover chiropractic care; some have limits to what they will cover. Don't be disappointed if you find this to be true in your care too. Health insurance was never meant to be a PAY ALL plan. The final financial responsibility for your chiropractic care rests upon you, the patient.

To help our patients fully understand their chiropractic benefits, we have put together a list of questions for you to ask your insurance provider.

- Does my policy cover chiropractic?
 - If yes: Are there any limits to my coverage?
 - Ask them to be specific regarding: deductible, max out of pocket, and number of visits
- What is the yearly deductible?
 - Has part or all of my deductible been met?
- Do I have a co-pay for office visits, or do I pay a percentage?
 - If yes: what is my co-pay or percentage?
- Does my policy also cover physiotherapy, x-rays, nutritional supplements, orthotics, or therapeutic massage?

Your health is our major concern. Our goal is to provide to you the best possible chiropractic care. We will not allow the limitations of your coverage to dictate the quality of the care you receive. If special arrangements are needed, please discuss them with our insurance and billing personnel. Monthly payments plans are available.

I have read and understand the above Insurance and Financial Policy. I understand that the final financial responsibility of this account rests upon myself.
