Look Your Best With New Glasses From Vision World

SUMMER IS COMING - PROTECT YOUR EYES WITH TRANSITIONS ADAPTIVE LENSES OR POLARIZED SUNGLASSES FROM VISION WORLD.

\$50 OFF

OR

\$50 OFF

POLARIZED LENSES

Polarized lenses are sunglasses that reduce glare. Glare is caused when light from the sun is reflected off of the water or a solid surface. By neutralizing glare, polarized lenses help you see objects more clearly, and also help reduce the harmful effects of UV light.

**TRANSITIONS
ADAPTIVE LENSES**

Transitions Adaptive Lenses change with your environment. Plastic makes them light and sunlight makes them dark. Transition lenses protect from the harmful UV light and also from the blue light.

VISION WORLD

Both transitions adaptive lenses and polarized sunglass lenses are available in many lens designs (single vision, bifocals and progressives) and in many materials (plastic, polycarbonate and high index). \$50 off applies to a complete set of glasses with transition or polarized lenses. + or - 4 diopters 2cyl. Cannot be combined with any other offer. Must be presented at time of purchase. Exp. 8/17
