- Stainless Steel Hinge
- One Piece Header

- All units are painted with a rust inhibitive primer ready to be painted

Additional sizes available

CD Model

CD-MODEL

For Existing Flat Foundations and New Construction

NOTE: Dimensions shown are outside frame dimensions.

HOW TO SELECT DOOR WITH SIDES

1. Measure dimensions A, B, C, D and K.
2. Select length at least 2" longer than “A” and no longer than “B”.
3. Select width at least 4" wider than “C” and no wider than “D”.
4. Check to make sure the height of the model selected is greater than “K”. The “K” dimension is the distance from the top of the foundation to the top of basement door opening, not the height of your old door.
