## DATA DESTROYER

# PD-4

Hard Drive Physical Destroyer

### **PD-4** Destroyer NSA/CSS EPL-Listed

The PD-4 physically destroys hard drives by bending, breaking, and mangling the hard drive and its internal components including the data platters. Using a rugged stainless-steel crushing wedge, the PD-4 bends the data platters preventing the hard drive from "spinning up" or for the hard disk platters from being removed and placed on a spin stand used in laboratory data recovery techniques. The PD-4 also cracks the hard-drive housing, breaks the PC board, and smashes the read-write heads. Best for use after degaussing, the PD-4 ensures total hard drive destruction.

### **Secure and Compliant**

The PD-4 will help you satisfy the most stringent government and industry standards, including:

- **California Senate Bill 1386**
- **DOD** Emergency Destruction Guidelines
- **FCC**
- **GLBA** (Gramm-Leach-Bliley Act)
- **HIPAA** (Health Information Portability and Accountability Act)
- **NIST** (National Institute of Standards and Technology) Guidelines for Media Sanitization
- **NIST SP 800-36**
- **NIST SP 800-88r1**
- **NSA/CSS SDDM 9-12**
- **PCI DSS 3.2** (Payment Card Industry Data Security Standard)
- **PIPEDA** (Personal Information Protection and Electronic Documents Act)

### **PD-4** Destroyer

- Listed on NSA/CSS Evaluated Products List
- Bends, breaks, and mangles hard drives, including data platters and other internal components, preventing data recovery
- Independently tested and certified to meet CE directives for safety, compatibility, and interference
- Lightest electric destroyer on the market
- Crushes multiple drives at a time
- Quiet, office friendly design
- No hydraulics

### **International Standards**

Independently tested and certified to meet CE safety and compatibility standards.
