

## Right To Choose/Warranty

Printer owners have the right to choose the imaging supplies that offer them the best value, regardless of brand or printer model. This right is legally protected under the Magnusson-Moss Act, which makes it unlawful for any printer OEM, technician, or service professional to void a printer warranty if aftermarket consumables are used.

Maximize value by choosing imaging supplies that offer the best combination of quality, price, and warranty. When you choose imaging supplies from West Point Products, you receive more value than you would from any OEM consumable. All of our products are backed by a 100% satisfaction guarantee: if a product ordered from West Point Products does not work as expected, we'll replace it. Not only that, but we will also cover the cost of repairs to any printer damaged by our cartridges, so whether your printer warranty is expired or not, you're still covered when you choose West Point Products.
