

At 200+ vehicles per hour, Belanger's QuickFire® is the most powerful front, side, and rear vehicle washer on the market. With revolutionary features such as the Caterpillar Bearings and Dual Directional travel action, this wrap accurately senses different vehicle widths for increased surface contact and outstanding wash results. Unlike traditional wraps, the QuickFire® enables tunnel operators to process vehicles at higher line speeds without sacrificing wash quality. With the Dyna Trigger™, the QuickFire® "fires" across the back of the vehicle for overlapping wash coverage effectively eliminating rear skunk striping ... no manual prepping required!

- Process 200+ vehicles per hour for greater profits.
- Patented Dyna Trigger™ mechanism accurately senses different vehicle widths for maximum rear vehicle cleaning time.
- Extended boom length delivers overlapping coverage on front and rear of vehicle.
- Dual directional wheel drive delivers unsurpassed wheel contact on all vertical surfaces for superior cleaning performance.
- Dampening 360° pivot motion minimizes vehicle damage.
- Patented Caterpillar Bearings offer smooth wheel movement throughout the wash process.
- New sleek design features enhance the customer's overall car washing experience.

Specifications

QuickFire®

REQUIREMENTS

Physical

Vehicle Height Clearance	90"
Vehicle Width Clearance	105"
Tunnel Length Required	222 1/2"
Unit Height	121"
Unit Width	153"

Utility

Electrical	2 outputs from controller 100 VAC
Hydraulic	6 GPM @ 900 PSI
Pneumatic	1 CFM (clean dry air) @ 90 PSI
Water	(2) 1/2" pipes @ 8 GPM @ 40 PSI
