

Captain of the Riverbend

2013 Winner

*** Community Involvement ***

Williams Office Products was founded in 1953 by Jack Williams, and 60 years later still serves the community with an extensive line of office automation equipment, office furnishings and stationery supplies. Although Jack is now retired, the business remains a family-owned and operated entity with second and third generation owners. The staff of Williams has grown to include 25 full-time sales, service and delivery personnel.

The company serves many local government entities by offering education, municipal and not for profit pricing programs along with custom value added services to further enhance their budgets and our tax dollars. Cash contributions in the last year totaled more than \$15,000 to organizations like Saint Anthony's Foundation, Challenge Unlimited, Marquette Explorers Club, Madison County Child Advocacy Center, the Boys and Girls Clubs of Alton and Bethalto, local churches and many others. They also have given in-kind contributions to local schools and organizations to be used as prizes.

Williams Office Products encourages their employees to participate in blood drives, charity walks and runs and to volunteer for organizations like Community Hope Center and Operation Blessing.

Williams Office Products is located at 500 E. Broadway in Alton

David and Linda Jones (2nd and 4th from the left) receiving the Captain of the Riverbend award at the State of the Riverbend Luncheon October 24, 2013 at The Commons of Lewis and Clark Community College in Godfrey, Illinois
