Re: Deltona NSP - Phase 1

Dave,

We have completed all of the Deltona NSP Phase-1 projects we were awarded, and want to thank you and acknowledge the contribution your company made to another successful Felton Construction endeavor.

These projects had their own distinct challenges (like the unusual billing procedures), but your crew and your office staff were professional and worked within the parameters we were given by the City of Deltona. . . just one more reason your company is on our *preferred* subcontractor list.

We included your company's name and contact information in the Close-Out Manuals submitted to the City of Deltona. Hopefully, if they use the information as a reference resource, it will generate additional business for you.

We look forward to working with you on future projects.

*Thank You!*
